Term

Transcription regulator activity  
Sequence specific dna binding  
Chromosome centromeric region  
Chromosome  
Nuclear protein containing complex  
Dna packaging complex  
Dna binding transcription factor activity  
Chromosomal region  
Chromatin  
Condensed chromosome centromeric region  
H4 h2a histone acetyltransferase complex  
H4 histone acetyltransferase complex  
Cis regulatory region sequence specific dna binding  
Condensed chromosome  
Atpase complex  
Protein acetyltransferase complex  
Dna repair complex  
Helicase activity  
Kinetochores microtubule  
Catalytic complex
