

darkgreen module  
individual 99

Term

Transmitter gated channel activity  
Ligand gated cation channel activity  
Extracellular ligand gated ion channel activity  
Ligand gated ion channel activity  
Integral component of presynaptic membrane  
Neurotransmitter receptor activity  
Molecular transducer activity  
Transmission across chemical synapses  
Presynaptic membrane  
Integral component of postsynaptic membrane  
Neuronal system  
Postsynaptic membrane  
Ligand-gated ion channel activity involved in  
regulation of presynaptic membrane potential  
Neurotransmitter receptor and postsynaptic signal  
transmission  
Plasma membrane signaling receptor complex  
Neurotransmitter receptor complex  
Sodium ion transmembrane transporter activity  
Heparin binding  
Cation transmembrane transporter activity  
Spine apparatus
