

**turquoise module
individual 26**

Term

Intrinsic component of plasma membrane
Molecular transducer activity
Neuroactive ligand receptor interaction
Synaptic signaling
Postsynaptic membrane
Cell cell signaling
Synapse
Synaptic membrane
Neuronal system
Biological adhesion
Transmission across chemical synapses
Class a 1 rhodopsin like receptors
Plasma membrane region
Plasma membrane protein complex
Postsynapse
Neurotransmitter receptors and postsynaptic signal
transmission
Gpcr ligand binding
Receptor complex
Calcium signaling pathway
Ion channel complex
